

BSR GATEWAY 2 SUBMISSION READINESS REPORT

Project: residential | Generated: 12 March 2026 | AI-Powered Analysis

SUBMISSION VERDICT

NOT READY TO SUBMIT

20 critical blockers must be resolved before submission.

0 item require human review before final sign-off.

Estimated time to resolve: 4-6 weeks

TOP BLOCKERS (must fix before submission)

1. COMPARTMENTATION STRATEGY WITH FIRE RESISTANCE PERIODS

What: No compartmentation section
Why: FIRE_SAFETY compliance requirement
Request: Address: No compartmentation section
Owner: Project Team

2. EVACUATION STRATEGY TYPE EXPLICITLY STATED

What: No evacuation strategy stated
Why: FIRE_SAFETY compliance requirement
Request: Address: No evacuation strategy stated
Owner: Project Team

3. EXTERNAL WALL SYSTEM FIRE PERFORMANCE SPECIFIED

What: No cavity barriers
Why: FIRE_SAFETY compliance requirement
Request: External Wall System Fire Performance Specified: No cavity barriers
Owner: Project Team

4. FIRE DOOR RATINGS SPECIFIED

What: Fire doors mentioned without FD ratings
Why: FIRE_SAFETY compliance requirement
Request: Address: Fire doors mentioned without FD ratings
Owner: Project Team

5. FIRE STOPPING AND PENETRATION SEALS

What: No fire stopping information
Why: FIRE_SAFETY compliance requirement
Request: Address: No fire stopping information
Owner: Project Team

ITEMS REQUIRING HUMAN REVIEW (AI uncertain)

The following require expert review before finalising submission:

No items require review.

WHAT TO REQUEST FROM EACH CONSULTANT

FIRE ENGINEER

- ☐ ☐ Add comprehensive sprinkler section to fire strategy addressing provision, coverage, standards, and design intent

STRUCTURAL ENGINEER

- ☐ ☐ Obtain and include structural report from ABC Structural Engineers Ltd covering foundation approach, superstructure system, and Eurocode compliance

PRINCIPAL DESIGNER

- ☐ ☐ Develop and document a comprehensive golden thread information strategy including data structure, storage approach, and handover procedures

CLIENT / DEVELOPER

- ☐ ☐ Address: No fire strategy report present
- ☐ ☐ Address: No documentation of escape provisions
- ☐ ☐ Address: No compartmentation section
- ☐ ☐ External Wall System Fire Performance Specified: No cavity barriers
- ☐ ☐ Address: No firefighting access section
- ☐ ☐ Address: No mention of staircase strategy

MISSING INFORMATION (not mentioned in documents)

No missing information identified.

NEXT STEPS

1. Resolve 20 critical blockers listed above
2. Obtain requested items from consultants (page 3)
3. Address review-required items with specialists (page 2)
4. Resubmit for final AI check before lodging Gateway 2 application

CAVEATS

This report is based on AI-powered analysis of submitted documents.

✓ **Reliable for:** identifying missing information, checking document completeness

✗ **Not a substitute for:** professional engineering judgement, regulatory sign-off

The Building Safety Regulator makes the final submission decision. This report supports preparation but does not guarantee approval.
