

Silverline House — 25-Storey Residential HRB

Building Regulations Compliance Statement

Document Reference: 1.2

Revision: Rev A

Date: March 2026

Project Reference: SLH-2026

1 Introduction

1 Statement of Compliance

This statement confirms that the design of Silverline House, as described in the Gateway 2 application documents, has been developed to comply with the Building Regulations 2010 and the Approved Documents applicable to each element of the design. The design team confirm that each functional requirement of Schedule 1 to the Building Regulations has been identified, the relevant compliance standard clarified, and the means of justification described in the accompanying technical documents.

2 Outstanding Items

Items submitted as Approval with Requirements (AWR) are identified in the Application Information Schedule. All AWR items will be resolved prior to commencement of the relevant work.
